Gen. Hampton's Portrait

"WADE HAMPTON, GOVERNOR OF SOUTH CAROLINA," is the subject of an exquisite nearly
life-size engraving, just published (and now
ready) by our enterprising friends, Walker,
Evans & Cogswell, Charleston, S. C. We con
gratulate these genitemen on the grand success
they have made of so noble a subject. As a
work of art it stands unrivalled, but still its
chief merit lays in its being a life-like portrait.
It is the first product, on so large a scale, of a
new and secret process based on photography,
having the advantage of great truthfulness. As
the photograph has superseded the oil-painting, having the advantage of great truthfulness. As the photograph has superseded the oil-painting, because of its exact reproduction of the subject, so this process is bound to take the place of steel engraving, or any method which depends upon artistic conception and execution for result—we mean for the production of portraits. What the people want in a portrait is truth—they do not wish the artist's conception of a man, but the face and features of the man as he is and the face and features of the man as he is—and by no means can this grand result be better at-tained than by the means of photography, and this new process based thereon. But while these great advantages are secured, it admits of the great advantages are secured, it admits of the embellishments of art, and a portrait is produced possessing all the truthfulness of a photograph, with the artistic effect of the steel engraving. The publishers have been extremely fortunate in their selection of the mode by which they give to all admirers of the great statesman the noble, generous, manly features, which speak so plainly the great mind, elevated feeling, and generous heart of Wade Hamyton.

Those who worked for the grand cause, "Hampton and Home Rule," who have paid taxes to the government of their choice, can now place this picture at their firesides, as they have placed its subject in their hearts. It must be-come one of the "Penates" of South Carolina. Those who sympathized with the gallant little

State in the struggle against such tremendous odds, will be pleased to have this portrait in odds, will be pleased to nave this porerait in their homes—a glorious memento of a peaceful, noble effort of a liberty-loving people to redeem themselves from oppression and misrule. It will be sold by subscription only, at \$2 per

Agents wanted to canvass every city and town in the land. To those who cannot be reached by agents, the publishers will supply copies per mail, on the ceipt of the price.

PROTECT YOUR BUILDINGS. Which may be done with one-fourth the

usual expense, by using our PATENT SLATE PAINT (Fiftesn Years Established.)

MIXED READY FOR USE. Fire-Proof, Water-Proof, Durable, Economical and Ornamental.

A roof may be covered with a very chear shingle, and by application of this slate be made to last from 20 to 25 years. Old roofs can be patched and coated, looking much better and lasting longer than new shingles without the

One-third the Cost of Re-Shingling. The expense of slating new shingles is only about the cost of simply laying them. The paint is FIRE-PROOF against sparks or flying embers, as may be easily tested by any one.

IT STOPS EVERY LEAK, and for tin or iron has no equal, as it expands by heat, contracts by cold, and NEVER CRACKS nor scales. Roofs covered with Tar Sheathing Felt can be made water-tight at a small expense, and preserved for many years.

This Slate Paint is EXTREMELY CHEAP. Two gallons will cover a hundred square feet of shingle roof, while on tin, iron, felt, matched boards, or any smooth surface, from two quarts

to one gallon are required to 100 square feet of surface, and although the paint has a heavy body it is easily applied with a brush. No Tar is used in this Composition,

therefore, it neither cracks in Winter, nor run On decayed shingles, it fills up the holes and pores, and gives a new substantial roof that will last for years. Curled on Warpen shingles it brings to their places, and keeps them there.— It fills up all holes in felt roofs, stops the leaks—and although a slow dryer, rain does not affect it a few hours after applying. As nearly all paints that are black contains TAR, be sure you obtain our genuine article, which (for shin-

gle roofs) is CHOCOLATE COLOR, when first applied, changing in about a month to a uniform slate color, and is, to all intents and purposes SLATE. On

TIN ROOFS our red color is usually preferred, as one coat is equal to five of any ordinary paint. For BRICK WALLS

our BRIGHT RED is the only reliable Slate Paint ever introduced that will effectually prevent dampness from penetrating and discoloring the These paints are also largely used on out houses and fences, or as a priming coat on fine buildings.

Our only colors are CHOCOLATE, RED, BRIGHT
